### About Marianne

My purpose is to empower you to eliminate the fear and uncertainty of a life out of balance. You can enable yourself to live a healthier lifestyle by taking control of your personal wellness. In My own life, I have been turned away by doctors. I have been previously told that invasive procedures or drugs were the only solutions to chronic health concerns. Instinctively, I knew there had to be a better way of maintaining health.

#### I Understand.

The frustration I experienced, while searching for solutions to improve my health, put me on a path of learning nutrition, wellness and wholesome living, close to the earth.

One aspect of my work stems from being a Certified Body Code Practitioner and the use of applied kinesology/ muscle testing.

As I started using these techniques to release trapped emotions and negative energy, the benefits quickly became evident. I experienced improved wellness for myself, my immediate family and others.

### Experience Healing

You can release emotions and other imbalances which are blocking you from enjoying your quality of life, and from being the whole person you were created to be.

I employ healing modalities such as essential oils and proven therapeutic solutions designed to improve your well-being. I am drawn to energy work for its power in healing individuals and families.

#### Let's Work Together

My work is geared to help adults, children and animals that are dealing with a wide range of emotional and physical dis-ease issues.

I would love to join with you on your healing journey.

It is my hope that you and I can work together to improve your personal wellness, health and joy. Let's schedule a free consultation where we can talk about balancing your emotions, body and spirit, putting you on the path to wellness.
